PROFILE

Computer Science student at Darshan University with a strong foundation in full-stack web development. Experienced in building responsive and user-friendly applications using modern frameworks and technologies. Passionate about creating efficient solutions and continuously expanding technical skills through hands-on practice and learning.

PROJECTS

RMTS - Rajkot Mass Transport Service (<https://rmts.somee.com>) 2024 – 2025

- Developed the Rajkot Transport Management System (RMTS) using ASP.NET Core and SQL, providing real-time information on nearby bus stops within a 3 km radius, route suggestions, and detailed bus schedules.
- Integrated user-centric features including an all-routes view, feedback module, and complaint management system, enhancing public transport accessibility and user experience.

Exam Portal

- Developed an Online Exam Portal using React, Node.js, and SQL with role-based access for students, teachers, and admins. Features include online MCQ exams, result viewing for students, exam creation and result management for teachers, and comprehensive student and teacher management for admins. 2024

AWARDS

College MEAN Stack Hackathon - Winner 2023
