SUMMARY

I am a Computer Science student at Darshan University specializing in full-stack web development. With a solid foundation in modern frameworks and technologies, I am skilled in creating user-friendly applications. My passion lies in developing efficient solutions and continuously enhancing my technical abilities through practical experience.

PROJECTS

RMTS - Rajkot Mass Transport Service (LIVE)

<https://rmts.somee.com>

Rajkot Mass Transport Service application to improve public transport accessibility

- Developed the Rajkot Transport Management System (RMTS) using **ASP.NET Core (MVC & Web API)** and **SQL**, providing real-time information on nearby bus stops within a 3 km radius, route suggestions, and detailed bus schedules.
- Integrated user-centric features including an all-routes view, feedback module, and complaint management system, enhancing public transport accessibility and user experience, achieving an average of 2,000 visits every 28 days.

Exam Portal

An application for conducting online exams, result management, and user role administration

- Developed an Online Exam Portal using **React**, **Node.js**, and **SQL** with role-based access for students, teachers, and admins
- Included features such as online MCQ exams, result viewing for students, exam creation, and result management for teachers
